EYFS Long term plan/ progression map

<u>Intent</u>

The intent of the Early Years Curriculum is to ensure children reach the early learning goals of the National Curriculum and the Development Matters document. Children will gain a greater understanding in the prime and specific areas across the curriculum as they learn vital skills, that they will develop throughout their school life. Over the course of the year knowledge is built upon forming a spiral curriculum, each term progress of children should build upon previous knowledge. During the Autumn term it is essential to ensure children are settled into their learning environment where they feel safe and secure. We begin the term with an 'All about me' topic, to allow the children to learn about themselves, teachers, and their peers. Learning through play is a crucial element to the Early Years setting as it allows children to develop language skills, emotions, creativity, and social skills. Play helps to nurture imagination and gives children a sense of adventure. Through this, they can learn essential skills such as problem solving, working with others, and sharing. Children should be supported in all areas and differentiation should be clear throughout, in order to challenge and support children effectively. Observations should be carried out weekly on all children and should be linked to areas of the Development Matters document. Next steps should be planned efficiently, and children should be made aware of these next steps. This curriculum should provide experiences that children may not have incurred before and we aim to provide a commitment to developing key vocabulary to close the word gap ready for the next phase of learning. The curriculum should continually be adapted accordingly to cater for the children's needs and should also be tailored to individual children. The curriculum should be reviewed yearly and should be changed to support the needs of the new intake.

Implementation

To implement this curriculum, we ensure to plan learning activities that build on children's knowledge and interest. Focus activities should be planned to complement the curriculum and link to the stages of their development. Challenge should be prominent throughout and all learning activities should have opportunity for challenge. Next steps are vital to inform future planning and to ensure the child needs are met, they also allow children to take ownership over their own learning. Support will be put in place for children who are not meeting their expected stages, and this will be in the form of; focus groups, 1:1 learning, Learning Support Assistants, and one plans for specific children. Observations form a large part of assessment within this scheme of work and this is shown through tracking documents. Teacher judgements are also a prominent part of assessment and these are based upon observations, children's work, student feedback and questioning.

<u>Impact</u>

You will see the impact of this curriculum by the progress the children make each term. By the end of the year we aim for the children to meet their Early Learning Goals outlined in the curriculum. By looking at observations on Tapestry, work in the children's books and speaking to the pupils, their learning and achievements will be clear. The children are encouraged to take a risk with their learning, by challenging themselves in their learning/ play. Challenge questions are placed throughout the Early Years setting for the children to do.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
	All About Me	Autumn and Celebrations	People Who Help Us	Traditional Tales	Plants and growing	Dinosaurs
Learning Challenge Question	Is everybody's home the same?	Why are there so many leaves on the ground?	Who can I ask for Help?	Should Goldilocks say sorry?	How do things grow from seeds?	What type of creatures lived a long time ago?
WOW	Baby pictures Baby enhancement box. Hall of crazy mirrors. Walk in the local area looking at people's homes. Vets enhancement box.	Trip to the local woods- play with leaves, explore, den making. Freeze some of the children's toys.	Visitors from professions or parents who have interesting jobs. Class bear police incident for the children to investigate.	Dress up for World Book Day. 'Super Sentence Writer' of the week – wear a cape in class for the day.	Growing fruits and vegetables School trip (fruit picking/farm to fork)	Finding fossils in the sand
Special events	Harvest	Remembrance Day Bonfire Night Diwali Christmas	Chinese New Year Epiphany Saints St Valentine's Day Shrove Tuesday Ash Wednesday	Mother's Day Easter	Father's Day	Sports Day

(Objectives to be carried out throughout the year)	Recognise simple religious beliefs or teachings.		 What is right? What is wrong? What is "good"? Raise puzzling and interesting questions about religious and belief stories. Raise puzzling and interesting questions about the world around them. Talk about what concerns them about different ways in which people behave. Say what matters to them or is of value. Use their senses to investigate religion and belief 		 How do people celebrate? What festivals and ceremonies have you taken part in? Identify simple features of religious life and practice in a family context. Recognise a number of religious words. Know where some religious worldviews originated Name some religious symbols. Name some religious artefacts. Talk about religious events that they see or hear about e.g. festivals, ceremonies. Talk about what people wear because of their beliefs. Visit a local place of worship. Talk to someone who holds a particular religious or non-religious belief.
